

That's right folks, while the state of Colorado sat under 5 feet of snow all winter long, we at CNS were hard at work crafting something new and improved for our adult patrons.

Parents, Seniors and everyone else share many things in common. We like to have somewhere comfortable to relax and just be ourselves. After a long week of obligations, appointments and headaches, we like to kick up our feet, have someone bring us a cold drink and ask "can I bring you anything else?". Thanks to the thoughtful folks at CNS now you can do just that in the all new Beer Garden!

With all new comfortable seating, an incredible racing atmosphere, waitress service and exclusive, complementary beer tastings you just can't beat the all new Beer Garden at Colorado National Speedway... and we didn't even mention the Foursquare specials! For only \$2 admission you've Gotta Be Here! There's no where else in Colorado where you can experience these simple comforts with lightning fast, ground pounding, NASCAR racing action as the back drop!

Shake the weight of the work week off your shoulders in the Brand New Beer Garden every Saturday night, all season long right here at Colorado National Speedway!
