GILLETT VET CLINIC LATE MODELS

The championship points battle in the Late Model division has been close all year and with only a few races left #74 Dan Savage holds a small lead over #12 Bruce Yackey making each race monumentally important. Early in the race #31 Rick Smith grabbed the lead but the "savageman" Dan Savage had already worked his way into 2nd and was battling Smith for the lead. To Savage's delight Yackey was back in 5th struggling to pass #27 Roger Avants and #7 Adam Dienes. Multi-time main event winner this season (and also 3rd place in the points chase) Rick Smith held on for the win by just a few feet over Savage who gained valuable points in his

championship quest. In 3rd place it was #27 Roger "the iceman" Avants, 4th went to impressive rookie #7 Adam Deines and rounding out the top 5 was #66 Darren Bucklen. #12 Bruce Yackey finished a disappointing 6th place hurting his chances at catching Savage for the title. When all the dust settled Savage holds a mere 23 point lead over Yackey.
