At Colorado National Speedway, the top dogs in the Speedy's Autos Late Models didn't disappoint. Avants fended off determined competitors, maintaining only a slight lead while a 5 way fight for 2nd place raged on behind him.

Speedy's Autos Late Models
16 Late Models hit the track for the 40 lap Main Event. #41 Mark Neff had the pole followed by #54 Joe James Jr. Behind the leaders #66 Darren Bucklen had the inside of row 2 with #27 Roger Avants on his outside. #74 Dan Savage had the inside of row three.
Joe James Jr lead the pack until Avants took the lead via the outside. At lap 4 Darren Bucklen spun out along the back stretch bringing out the yellow flag. Dan Savage and Bucklen were subsequently sent to the rear of the field. With 2 of the top five out of the way, #39 Jack Nugent found a quick line into 2nd behind Avants. Behind the leaders, Mark Neff lead a 4 way, fender to fender race for 3rd with #12 Bruce Yackey, #42 Ronnie Hults and #22 Chris Eggleston.

Tragically, a technical problem with the #39 of Jack Nugent took him out of the race. The resulting yellow flag lined up Avants and Neff in row one followed by Eggleston and Yackey in row two. Avants sped back into the lead on the restart. Just behind, Yackey made short work of Neff and Eggleston, taking 2nd with authority. A few car lengths back #31 Rick Smith edged himself into 3rd, leading a 4 way fight so tight you could throw a blanket over them.

Avants stuck his lead for the win followed by Yackey. 3rd through 6th place were photo finishes. See official results below.
